

PRIYAL SARDA

priyal.sarda2005@gmail.com — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

Professional Summary

Data Analytics and AI/ML enthusiast with experience in Python, machine learning, and data visualization tools. Skilled in data cleaning, exploratory data analysis, and building dashboards to derive actionable insights.

Education

Newton School of Technology, Rishihood University
Bachelor of Technology (Artificial Intelligence)

2024 – 2028
GPA: 7.6 / 10.0

Skills

Languages: Python, SQL

Libraries: Pandas, NumPy, Matplotlib

Tools & Visualization: Tableau, Excel, Git

AI / ML: Machine Learning, Predictive Modeling

Others: Data Cleaning, EDA, Business Analytics

Projects

Real Estate Market Analysis

Dashboard — [Repo](#)

Python, Real Estate Analytics, Data Visualization

- Analyzed comprehensive real estate datasets to identify market trends, pricing patterns, and investment opportunities across different property types and locations. Performed extensive data cleaning, feature engineering, and statistical analysis using Python.
- Designed interactive visualization dashboard showcasing property price distributions, location-based insights, and market dynamics, enabling data-driven decision-making for real estate stakeholders.

Customer Churn Analysis

Dashboard — [Repo](#)

Python, Pandas, Tableau, EDA

- Built an end-to-end churn analysis pipeline on customer data to identify retention risks and behavioral patterns. Performed null handling, feature engineering, and segmentation based on customer attributes such as spending, frequency, and demographics.
- Developed Tableau dashboards to highlight churn drivers and provide actionable insights for improving customer retention.
